PROJECT

BANDMATE | PHP, BOOTSTRAP, MYSQL

BandMate is an effective tool for enhancing music collaboration within NEUST by simplifying band formation, practice organization, and creative partnerships.

PEDIGRAB | FIGMA, CANVA

Pedigrab is a convenient food delivery app designed for students of NEUST. It allows those who are far from the school canteen to easily order meals straight to their phones. With a few taps, students can enjoy their favorite canteen dishes without the hassle of leaving their location.

MUZICA | HTML, JAVASCRIPT

A platform where you can play a selected available music.

WORK EXPERIENCE

2022 - 2025   PUBLIC EMPLOYMENT SERVICE OFFICE(PESO) | CLERK

The PESO offers a program called the Special Program for Employment of Students (SPES), which assigns students to various workplaces such as schools or companies to work as clerks for 20 days during school breaks. This program helps students earn income while gaining work experience. I have been a SPES beneficiary for four years, and through this program, I developed my communication and time-management skills and strengthened my ability to cooperate effectively with a team.
